TRAVELS IN EGYPT and toe HOLY LAND;

THE CRESCENT AND THE CROSS:

Comprising the Romance and Realties of Eastern Travel.

By Ellot Warburton, esq.

New Edition, 519 pages, 12mo., with 12 line-rations. Price \$1.

This votume is a reprint of a most agreeable book of Eastern Travel. Brilliant and sparking in style, it retains the numeration attention of the reader by its exquisite imagery and glowing, yet truthful description of this dreamy land.

Those who have once read the book under the more familiar title of "Crescent and the Cross," will be glad to renew their requisitence with this old friend; and others, who for the first time enjoy its tream and vivid atyle, will hall with delight this endough narration of travel in a land endeared by so many more daine holy associations.

"This of lightfue work is, from first to less, a splendid panorama of Eastern scenery in the full blaze of its magnificence."—London Morning News.

"A brilliant, poetic, and yet most instructive book."—New-

A brilliant, poetic, and yet most instructive book."-New

Yerk Courier and Enquirer.

"The p-polarity of this work in England has been exceeded enly by that \$\mathbb{G}\$ highlars " Entenn," and, indeed, we think that Warburton's views of Eastern manners are more reliable than the poetic fancies of Kingaake,"—Phila, Press.

Ready on Saturday: THE EXPLOITS AND TRIUMPHS IN EUROPE,

IN EUROPE,

OF

PAUL MORPHY,

THE CHESS CHAMPION.

Including an Histo ical Account of Clube, Biographical Sketches
of Farnous Players, and Various Information and Anecdotes
relating to the Noble Game of Chess. By Paul Murphy's
Late Secretary. I volume, Ithmo. Cloth, 75 cents.

Chess may be a game, a maxime, a relaxation; but Chess has,
at times, absorbed the faculties of the most intellectual of every
times. It numbers among its anateurs the greatest names of
battle-fields and thrones—it tells of warriors, poets, painters,
sendpors, statesmen and divines; it possesses a language and a
inscature of its own; and it has its temples on the ocean, in the
fureas, and by the fireside. Paul Murphy has vanquished the
Paladine of the New and Old Worlds, and vauted into the very
throne of Labourdounsis and Philidor. As long as Chess shall
last his name will be a household word, and his deeds be held in
lasting memory.

D. APPLETON & Co., New-York.

From The London Times

"Mr. Morroy The Censes-Player.—This gentleman arrived in London a few days go from Paris, or route for his native city, New-Orleans, via Laverpool. On Tuesday week he played at the London Club, Cerushili; and in the evening at Herr Lowenthal's new Chess Club, St. James's Hall. A match was heatily made up for Wenesday, and came off at the London Club—Mo phy contending blindfold against eight members of the club, eight games simultaneously. This remarkable feat of genius he had before accomplished twice in Europe, but the two eights of Birmingham and Paris were both very inferior to the eight of the London Club who played against Mapply on the present occasion, and his task was proporth nately increased in difficulty. Morphy, in a separate room, began his solitary test by proclaiming, through Herr Lowenthat, that he opened with king a pawn two in each game. A crowd of subious spectors and chess celebrities were present. Lowenthal proclaimes the players' moves alond, as made, and Morphy instantly called out his reply. To every two boards was appointed a Sec?es.—To take down the moves. After six hours pley Mr. Affred Jones and Mr. Made were defeated; while of the remaining six, two, at least, had force do rour games as the atom of the proceeding on three or four boards, and then by cone int, these last games were usinsissed as drawn—the contest having lasted over seven haurs. The marth concludes by Mr. Phy Deing de clared to have were using some sense and drawn—the contest having lasted over seven haurs. The marth concludes by Mr. Phy Deing de clared to have been made on mistake, never proceeding on three or four boards, and then by cone in these last games were usingsed as drawn—the contest having lasted over seven haurs. The marth concludes by Mr. Morphy considers talls the templets in the long sixting he never inade one mistake, never processing and made pawn. It may be usefully promounced that no greater mental feat was ever accomplished by man."

D. APPLETON

was ever accomplished by man."

D. APPLETON & Co., have also in Press.
A NEW AND THOROUGH TREATISE ON CHESS.

With accurrete Reports, and the most skillful Analyses of all the Great Games of Paul Morphy, Labourdonnais, Philhor, Daschappelles, Harrwitz, Anderseen, St. Amant, Staunton, and other Famous Players. By Herr Cowenthal Chess Edstrand Analyst.

Extract from Paul Morphy's "Note to the Reader."

"Many fire ads, both in Europe and America, have frequently asked me to arrange a collection of my Games, winch they have assured me would meet with a slindly reception from Cause Players generally. But continued contests during the past twelve mortis would have proof deal my according to the flattering request, had it not been for the assistance roudered une by my fliend, Herr Lowenthal. The copious notes with which this volume is corrected, are solely due to his well-scarced reputation as an Analyst, and will amply repay perusal from every lover of as an Analyst, and will amply repay perusal from every lover our noble Usine." Paul MORPHY. London, April 13, 1559.

THE ONLY PLACE TO OBTAIN THESE CELEBRATED SPECTACLES IS BY THE MANUFACTURERS, AT

READ THESE TESTIMONIALS. No. 45 LAPAYETTE PLACE, NEW YORK, May 3, 1850. No. 45 LAFAYETTE PLACE, New YORK, May 3, 1856.

I have examined some specimens of Spectacles manufactored
by Semmons & Co., from the Brazilian pebble. The shape of
the lens is such as to resemble the cornes, and in this respect
presents an important improvement over the lens in ordinary
use. The material, also, i consider preferable to glass, inastance
ast it spit to be more equal in density, as well as harder and
more transparent.

J. M. CARNOCHAN,
Professor of Surgery, New-York Medical College, Surgeon-inChief to the State Hospital, &c.

FROM LIEUT. MAURY. OBSERVATORY, WASHINGTON, Jan. 13, 1253; I have had on trail for several days a pair of your proble speciacles. The lenses are clear and well ground. I find them good and pleasant to look through.

Respectfully, &c., M. P. MAURY.

Messrs, Semmons & Co. have exhibited to me a case of Spectacles, the lenses of which I find, on examination by means of polarize d light, to be formed of transparent crystalized quart. This substance is muon harder and tougher than giase, and emasquoutly peasers the superior advantage of retanding policies, with a less liability to fracture. The lenses are also ground to the most approved periscopic form, and placed obliquely on the frames so as to he at right angles to the axis of vision while the eyes are directed to a book. I can therefore safely recommend them in the above particulars.

Waterstone, fan. 10, 1859.

Washington, Jan. 10, 1859. FROM PRANCIS GURNEY SMITH, M. D., PROFESSOR, ETC. ETC.

Undoubedly they are the best spectacles in the world. The continuous use of them for any number of hours does not fatigue the eye in the least, and the vision of the eye is rendered by them in all respects that that of youth.

FROM E. GEDDINGS, M. D., PROFESSOR OF SURGERY AT THE

I have examined the Brazilian public spectables manafactured by Meetra Seminous & Co., and while theoretically satisfied, from a knowledge of the material and their construction, of their superiority over those in more general use heretofore, I have also tested them with those who have used other glasses, and would hence cheerfully recommend them to all whose sight requires artificial aid.

W. MILTENSERGER, M. D.

Baltimore, Sept. 1, 1850.

FROM ! ANTHONY BLANC, ARCHHISHOP OF NEW-ORLEANS.

SPECTACLES **EPECTACLES** SPECTACLES SPECTACLES PERRIE BRAZILIAN

SEMMONS & Co.,

SPECTA".ES SPECTACLES. SPECTACLES.

BRAZILIAN PEBBLE SPECTACLES. Measrs. Semmons & Company, occulists opticisms, respectfully announce that they have opened the above store, with a splendid assuriment of these newly invented and improved Spectacles, at whole sale and retail; also, optical instruments, vist. Microscopes, Telescopes, Sterescopes and Views, a new supply of which will be received by the arrival of each and every steamer.

A well-a rotted stock of Voigtlander & Son's of Vienna celebrated opers and marine glasses are constantly kept for sale here, this being the sole depot in An erica.

The Brazilian peoble is the only true lens that has hitherto been constructed, as a is founded on the most selentific principles, in accordance with the philosophy of nature, in the peculiar form of a concave-couvex mirror, and most admirably adapted to the organ of sight, perfectly natural to the eye—afording aftective the best artificial help to the human vision.

The great novelly in them is the focus, which is disposed of in such a manner as to counteract the intrinsity which it is intended to renerly. The material of which they are manufactured gives them a superior hardness and polish, preventing them from being defaced by scratches. Their cooliness recommends them especially to those having weak and intribule eyes. The superiority and usefulness of these improved speciales is faily demonstrated by the unanimum superoval of the most celebrated physicians and oculists of Europe and America.

The exprisence Mesars, S. & Co. have acquired, combined with their perfect knowledge of the optical acience, enables them to decide with certainty, on the mere inspection of the eye, what sort of glass sure best suited to certent the defect of vision, either to give it greater strength, or merely preserve it, as may be necessary, without causing any apparent change, any fatigue or weakness.

N. B.—Persons in the country can be supplied by forwarding

No. 6694 BROADWAY, UNDER THE LAFARGE HOUSE. Mesers. S. & Co. desire to state that their sole attention has been paid for years to the adaptation and sale of spectacles. Opening the Optical Institute in New York, they have met the wants so long felt in effering a sure guide to those who require the judgment of a good Optician, and solicit the patronage of the public.

FROM VALENTINE MOTT, M. D., PROFESSER, ETC.

This may inform that I have used for three weeks past a pair of the spectacles of Mesons. Semmons & Co., made of the rock crystal from Brazil. I am very much pleased with them. They are very transparent, and can, I find, be easily ground and polished to suit the desired focus. Perhaps it is fancy, but they appear to me cooler than glass.

V. MOFF. New York, 36th April, 1859. I have examined the Brazilian peoble spectacles manufactured Measrs. Semmons & Co., and take pleasure in saying that as as theory has convinced me they are admirably adapted to must comfort and ease to the valuable organ of signt. The sailian peoble is hard and homogeneous; the cooless of the and the construction gives the na preference over all lenses

nade of glass. I recommend them ones fully to my friends, JAMES R. WOOD, M. D. No. 2 Invine-place, New-York, 5th mo., 12th, 1859.

FROM PROFESSOR JOSEPH HENRY, SMITHSONIAN INSTITUTE,

PHILADELPHIA, May 50, 1857. Philadelphia, May 50, 1857, amount you have received in favor of the "Brazilian publica." They are the most comfortable glasses I have ever used, and I must cordially recommend them to all requiring artificial aid. I am greatly indebted to you for origing them to my outloo. Very respectfully yours. FRANCIS G. SMITH, Ja., M. D.

I have made what I consider a fair trial of the spectacles made by Semmona a Co. It affinds me great pleasure to state that, heads to exactlent quanty of the glasses, your spectacles, owing to your having adopted, in the main, the principles upon which were constructed the periscopic glasses of the late Dr. Wolaston, viz. the miniscus or concavo-convex lone, allow greater latitude in the field of vision and more case and comfort for the eya.

Respectfully, your obdt. serv't,
E. GEDDINGS.

From the use I have so far more of the spectacles you left with me some days ago, I som happy to be able to say that they said my sight uncommonly well, and I will not hesitate to recommend the same to my friends and acquaintances.

Respectfully, yours, ANTHONY BLANC, Archbishop of New Orienta.

SPECTACLES IS BY THE WANUFACTURERS, AT NO. 669; BROADWAY,

UNDER THE LAPAROE HOUSE.

respectfully yours, FRANCIS G. SMITH, Ja., M. D.

ERON B. L. EVRD, M. D., PROTESSOR PRINCIPLES AND PRACTICE OF MEDICINE IN OGLE PHORPE MEDICAL COLLEGE AT

ANYANAR, Gs.

I am appeare to giving the influence of my name, as a physician, to the recommendation of articles intended for the relief of compenial or accidental defects of the human system, until I have become satisfied from careful personal observation that they are really calculated to accompish what is promised for them by their originators. Acting in accordance with this rule, is affords me picaure to add only testimony in favor of your Brazilian Pebbie Lemes for aiding the defects of vision, which are succeptable of both relieved by the use of spectacles.

** I am, very respectful by yours.

FROM THE ROS. GEORGE D. PRENTICE, EDITOR OF THE LOCUSVILLE JOURNAL.

FROM DRS. MILTENBERGER AND SMITH, BALTIMORE

I folly concur in the opinion expressed by Dr. Miltenberger, and take great pressure in recommending the Bramian public glass at the public.

Ballmore, Sept. 1, 1858.

THE ONLY PLACE TO OBTAIN THESE CELEBRATED
